

**A Number of candidates sitting the 2024 familiarisation Test B and the average marks**

	Maths			English		
	Number sitting test	Average mark (50 Qs)	Average percentage	Number sitting test	Average mark (65 Qs)	Average percentage
Male	557	30.0	60%	557	35.3	54%
Female	583	28.4	57%	583	36.4	56%
Total	1,140	29.2	58%	1,140	35.9	55%

**B Explanation of standardised scores**

The standardised score is calculated in the following manner:

The average (mean) score for each paper is re-based to a standardised score of 100.

The standard deviation of the results is re-based to a value of 15.

A candidate's standardised score is calculated by determining how many standard deviations their score is from the mean score, multiplying the answer by 15 (the re-based value of 1 standard deviation) and either adding or subtracting the calculated value from 100 (the standardised mean score) depending on whether they scored above or below the mean.

**Example** : mean score=30, one standard deviation=4.5, candidate score=33.

Candidate's standardised score=  $100 + ((33-30)/4.5)*15 = 100 + 10 = 110$

		Analysis of answers by question category:																Correct = number of correct answers				None = number of questions for which no answer was given				Multiple = number of questions for which more than one answer was incorrectly given				Incorrect = number of incorrect answers												
Candidate number	Gender	Total - whole paper				Addition, subtraction, multiplication and division				Number and place value				Measurement				Fractions, decimals and percentages				Statistics				Ratio and proportion				Geometry - position and direction				Geometry - properties of shapes				Algebra				
		Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:				Incorrect answer analysis:

Analysis of answers by question category:

Correct = number of correct answers

None = number of questions for which no answer was given

Multiple = number of questions for which more than one answer was incorrectly given

Incorrect = number of incorrect answers
